OBJECTIVE:-

To achieve a challenging position in Software Development where my acquired skills will be utilized towards continued growth advancement of the organization.

PROFESSIONAL SUMMARY:-

- Having hands on **Core Java, J2EE, MySQL, OOPs Concept, Collection Framework, Data Structures, Algorithms, Design Patterns.**
- Extensively worked **Data Driven framework.**
- Experience in hybrid framework using **POJO Class +OOPs+ Data driven concept.**
- Also having exposure on **Maven** as Project Management Tool as well as **GIT.**
- Developing properties files and reading the content from properties files.
- Design/Write/Review/Execute Scripts.
- Prepare scripts to cover overall application functionality development as per **JIRA** story.
- Having 3+ months experience as a Web Designer. Proficient in **HTML5, CSS3 and JavaScript.**
- Having a knowledge of **Cloud computing and Machine learning.**

CERTIFICATIONS: -

- Java Certification from Hacker rank platform.
- Programming for Everybody (Getting Started with Python).
- Python 101 for Data Science.
- Certification of AWS-OTP-AWSD15: AWS Cloud Practitioner Essentials.
- Certification of ARTIFICIAL INTELLIGENCE, ACCENTURE.
- Foundational Artificial Intelligence by NASSCOM.
- 3 stars badge in SQL by Hacker rank platform.

QUALIFICATION DETAILS:-

- B.E. (**Electronics & Telecommunication Engineering**) from AISSMS COE, Pune in 2023 with 9.19 CGPA.
- H.S.C. from Maharashtra State Board in 2019 with 73.94%.
- S.S.C. from Maharashtra State Board in 2017 with 90%.

TECHNICAL SKILLS:-

- Programming Languages: - Core Java, J2EE, SQL, HTML5, CSS3, Python, TypeScript.
- Developer Tool / IDE : -VS Code, NetBeans, Eclipse, Wix .
- RDBMS/DBMS: - MySQL Database.
- Methodologies: - Agile.
- Frameworks: Hibernate, Spring, Spring MVC.
- Operating System:-Windows (7/8/10), Linux.
- Management tool: - Jira, Git, GitHub.

PROFESSIONAL PROJECT DETAILS:-

Project #1

Project Domain pShiksha4.0, Noida (Jan 2022- Mar 2022)

Project Type **eCourse Selling**

Designation Website Designer

Environment HTML5, CSS3, JavaScript and Wix.

Description Design and Develop responsive website for course delivery purpose. This includes multiple sections and categories of courses helps user to scroll less and efficiently get to required course page. This website includes course advertisement, content, number of participants and price.

Responsibilities

- Created responsive web pages for the admission of students for different courses.
- Created designs compatible with both iOS and Android.
- Fixed Search Engine Optimization (SEO).
- Collaborated with content team members to implement feature updates.

Achievements

Implemented responsive designs for Android versions of website which resulted in a 15% increase in mobile traffic.

Project #2

Project Type **Retail Banking System**

Environment J2EE, JDBC, GIT, JIRA, Maven, OOPS, Collection Framework.

Description Retail Banking System application provided functionality which enabled its users to perform various types of online tasks like, Transfer Funds, Bill payments, Account Overview, etc. It also enables users to trigger loan requests as a separate process. To develop a project for solving financial applications of a customer in banking environment in order to nurture the needs of a banking user by providing various ways to perform banking tasks. The main aim of this project is to develop software for Bank Account Management System.

Responsibilities

- Analyzing the requirement specification and design a particular function.
- Develop to validate the functionality which was required for app.
- Establish connection in code for accuracy and maintain redundancy of code.
- Discuss requirement with other team members.
- After completion of script perform dry run.

Project #3

Project Type **WheeChat (Chat Application)**

Environment Core Java, Socket Programming, Servlet, javax.net, Networking, JavaFX, JDBC, MYSQL.

Description A real-time chat application based on client server architecture and used for conversation within two users. Using swing, application provides interactive interface to user. Also created database which helps

to store session time between users.

Responsibilities

- Analyzing the requirement specification and design a particular function.
- Develop to validate the functionality which was required for app.
- Establish connection in code for accuracy and maintain redundancy of code.
- Discuss requirement with other team members.
- After completion of script perform dry run.

PERSONAL INFORMATION:-

- Name -: Ram Dnyandeo Patil.
- Date of birth -: 26th October 2001.
- Language -: English, Hindi, Marathi.
- Address -: "A-601", Sai Platina, in front of GK Royale Hills,Ravet- 412101

I hereby declare that the information given above is true to the best of my knowledge & belief.
